A diagram showing a sequence of blocks moving right and then down. The first row shows a block moving right, indicated by two right-pointing arrows. The second row shows a block moving down, indicated by two down-pointing arrows. The third row shows a block moving right, indicated by two right-pointing arrows. The fourth row shows a block moving down, indicated by two down-pointing arrows. The blocks are represented by small squares.

A diagram showing a sequence of blocks moving up and then right, with goal circles. The first row shows a block moving up, indicated by two up-pointing arrows. The second row shows a block moving right, indicated by two right-pointing arrows. The third row shows a block moving up, indicated by two up-pointing arrows. The fourth row shows a block moving right, indicated by two right-pointing arrows. The blocks are represented by small squares. Two goal circles are shown, one at the top left and one at the top right, both labeled "Goal".
